

[illegible]

Figure 1 displays four bar charts (DATA_P1, DATA_P2, DATA_P3, DATA_P4) showing the monthly distribution of the number of people in the 'People' category for the years 2012 and 2013. The charts are arranged in a 2x2 grid. Each chart has a yellow box with a legend: '2012年' (2012) in blue and '2013年' (2013) in red. The y-axis represents the number of people, ranging from 0 to 1000. The x-axis represents the months from January to December. The data shows a seasonal trend with higher values in the summer months (June-August) and lower values in the winter months (December-February).

Month	2012 (Blue)	2013 (Red)
1	100	100
2	100	100
3	100	100
4	100	100
5	100	100
6	100	100
7	100	100
8	100	100
9	100	100
10	100	100
11	100	100
12	100	100
